SH Bell Team,  
Are you available to get together to talk about SH Bell and the requests from our supervisor below?  
Let Brad and I know if your available today or tomorrow?

Brad and Steve,  
If we haven't already, we need to determine sensitive populations on the 7 homes with lead concentrations above 1200 ppm in the 0-6" interval. We need this ASAP, hopefully everyone will have been contacted by the end of the week. Please follow-up with Heriberto to see if he needs help.

Doug wants a briefing next week on SH Bell. Talk to Bill Greaves to set something up with Doug. Let's get an updated map and summary for the briefing. Can you also look at the public viewer and make sure the information is correct.

Thanks
